

# Paper Template for COMP30027 Report

Anonymous

## 1 Introduction

This is a report template, suitable for L<sup>A</sup>T<sub>E</sub>X. Don't use fonts smaller than this one (Times 11). Don't include a title page, table of contents, abstract, or other similar front matter.

Please don't include your name and/or student ID in the title or header; your report should be anonymised for the reviewing process. According to the Terms of Use of the dataset, don't forget that you must cite the two papers (Mukherjee et al., 2013) and (Rayana and Akoglu, 2015).

## 2 Section

Text,<sup>1</sup> with footnotes at bottom of page.

### 2.1 Subsection

Use **bold** for **emphasis**, but use sparingly.

Short quotations “*are included in the main text, in normal paragraph style, between double quotes and italicized*” All quotes should be properly referenced. Note that the citation style is defined in the accompanying style file; it is similar to AAAI house style. But you may use other (formal) citation styles if you prefer.

#### 2.1.1 Subsubsection

Figures should be placed in the text, not at the end. Figures must be captioned and explicitly mentioned in the text (Figure 1).
